Breed Watch Category	3
Breed	Bulldog

This tally sheet is designed to assist judges in recording health observations during their appointment. While it is an optional aid and should not be returned, it is a valuable tool for accurately recording the number of dogs with concerns. Using this sheet ensures that a definitive number can be provided, rather than terms like "some" or "a few," which do not offer meaningful data. This tally sheet does not replace the mandatory online form. Please complete the online form at https://bit.ly/3YcHd7D.

Points of Concern	Tally	Total
Signs of respiratory difficulty or distress (laboured or rapid breathing, excessive respiratory effort, respiratory noise)		
Eyelids not in normal contact with the eyeball, they are turned inwards or outwards		
Signs of dermatitis irritation in skin folds, and/or hair loss or scarring from previous dermatitis		
Heavy overnose wrinkle (roll)		
Lack of tail, screw tail, inverted tail or a tight tail		
Pinched nostrils		
Body Condition - Too Fat		
Signs of visible eye irritation or discomfort (including redness, discharge and tear staining)		
Unsound movement		

The table below is for recording any health concerns observed in the entry that are not breed-specific points of concern.

Other Health Concerns	Tally	Total
