DESCRIPTION OF EXERCISES AND GUIDANCE FOR JUDGES

1. Method of Handling.—Although implicit obedience to all orders is necessary, dogs and handlers must operate in as free and natural a manner as possible; persistent barking, whining, etc. in any exercise other than location of articles, person or speak on command should be penalised. Food must not be given to the dog by the handler whilst being tested.

2. Heel Work.—The Judge should test the ability of the dog to keep its shoulder reasonably close to the left knee of the handler who should walk smartly in a natural manner at normal, fast and slow paces through turns and among and around persons and obstacles. The halt, with the dog sitting to heel and a “figure of eight” may be included at any stage. Any act, signal or command or jerking of the lead which in the opinion of the Judge has given the dog unfair assistance shall be penalised. Extra commands shall be permitted in the Introductory Stake. Where required the lead should be of a slip type or attached to a smooth collar or slip chain. Retractable leads or head collars are not to be used.

3. Sit (Introductory Stake 1 Minute. CD Stake 2 Minutes).—Dogs may be tested individually or in a group or groups. The Judge or Stewards will give the order “last command” and handlers should then instantly give their final commands to the dogs. Any further commands or signals to the dogs will be penalised. Handlers will then be instructed to leave their dogs and proceed to positions indicated by the Judge or Steward until ordered to return to them. In the Introductory Stake, these positions should be in sight, but in the CD Stake, where possible, such positions should be out of sight of the dogs but bearing in mind the short duration of the exercise this may not be practical. Dogs must remain in the sit position throughout the test until the Judge or Steward indicates that the test has finished. Minor movements may be penalised. The Judge however may use discretion should interference by another dog cause the dog to move.

4. Down (Introductory Stake 5 Minutes. Other Stakes 10 Minutes).—Handlers must be out of sight of the dogs who may be tested individually or in a group or groups. The Judge or Steward will give the command “last command” and handlers should then instantly give their final commands to their dogs. Any further commands or signals to the dogs will be penalised. Handlers will then be instructed to leave their dogs and proceed to positions indicated by the Judge or Steward until ordered to return to them. Dogs must remain in the “Down” position throughout the test until the Judge or Steward indicates that the Test has finished. Minor movements may be penalised. No dog will be awarded any marks that sits, stands or crawls more than its approximate body length in any direction. The Judge however may use discretion should interference by another dog cause the dog to move. The Judge may test the dogs by using distractions but may not call them by name.

5. Recall to Handler.—The dog should be recalled from the “Down” or “Sit” position. The handler being a reasonable distance from the dog at the discretion of the Judge. The dog should return at a smart pace and sit in front of the handler, afterwards going smartly to heel on command or signal. Handler to await command of the Judge or Steward. Extra commands shall be permitted in the Introductory Stake.

6. Retrieve a Dumb-bell.—The dog should not move forward to retrieve nor deliver to hand on return until ordered by the handler on the Judge or Stewards’ instructions. The Retrieve should be executed at a smart pace without mouthing or playing with the dumbbell. After delivery the handler will send the dog to heel on the instruction of the Judge or Steward. Extra commands shall be permitted in the Introductory Stake.

7. Send Away and Directional Control.—The Minimum distance that the Judge shall set for the Send Away shall be 18.288m (20 yds) for the Introductory Stake and the CD Stake and 45.72m (50 yds) for all other Stakes. In the Introductory Stake the maximum distance that the Judge shall set for the Send Away Shall be 45.72m (50 yds). The TD and PD Stakes shall also include change of direction or directions of a minimum of 45.72m(50 yds). When the dog has reached the designated point or the Judge is satisfied that after a reasonable time the handler cannot improve the position of the dog by any further commands the dog should be stopped in either the stand, sit or down position at the discretion of the handler. At this point in the TD or PD Stakes the Judge or Steward shall instruct the handler to redirect the dog. In all Stakes, whilst the Judge should take into account the number of commands used during the exercise, importance should be placed upon the handler’s ability to direct the dog to the place indicated.

8. Steadiness to Gunshot.—No gun test will be held in buildings, or other confined areas, nor will shotguns be used at Working Trials. Guns used must be constructed to fire blanks only. Prior warning must be given to the handler, who will be instructed to work the dog “heel free”, or leave the dog within a controlling distance and in sight. The dog must not be provoked by excessive display of the gun, nor should the gun be pointed at the dog or handler except in Group IV Patrol. Any sign of fear, aggression or barking must be penalised. This test must not be incorporated into any other test.

9. “Speak on Command”.—The Judge will control the position of the handler in relation to the dog and may require the handler to work the dog walking at heel. If the dog is not required to walk at heel, the handler may place the dog in the stand, sit or down. The dog will be ordered to “speak” and cease “speaking” on command of the Judge or Steward who may then instruct the handler to make the dog “speak” again. “Speaking” should be sustained by the dog whilst required with the minimum of commands and/or signals. Continuous and/or excessive incitements to “speak” shall be heavily penalised. This test should not be incorporated with any other test.

10. Agility.—the descriptions below should be followed for Agility:

- a. No part of the clear, long jump or scale equipment to be traversed by the dog shall be less than 914.4mm(3ft) wide nor be in any way injurious to the dog. The tests shall be followed in any sequence decided by the judge Clear Jump, Long Jump, Scale, commencing with Clear Jump. Handlers should not be prevented from pacing or stepping out the position from which to send their dogs over the clear, long or scale jump provided this does not cause unnecessary delay.
- b. The Clear Jump should be so constructed that it will be obvious if the dog has exerted more than slight pressure upon it. The rigid top bar may be fixed or rest in cups and the space below may be filled in but the filling should not project above the bottom of the top bar. Appreciable pressure exerted by the dog on the clear jump shall be considered to be a failure.
- c. The construction of the Long Jump shall be as follows: The front element to be a minimum of 914.4mm (3ft) wide graduating over 5 elements. (The largest of which is removed for dogs not exceeding 381mm (15in) at shoulder: the largest two of which are removed for dogs not exceeding 254mm(10in) at shoulder) to a back element of a minimum width of 1.117m (3ft 8ins). The front edge of the front element to be 101.6mm (4ins) high rising to 177.8mm (7ins) at the back edge. Each element thereafter graduating in height by 25.4mm (1 in) - the back of the last element being 279.4mm (11ins) high. The minimum width (front to back) of each element to be at least 152.4mm(6ins) and clearly visible to the dog.
- d. The handler may either approach the clear and long jumps with the dog or send it forward or stand by the jumps and call the dog up to jump. At no time should the handler proceed beyond any part of the jumps before they have been traversed by the dog. Casual fouling of the Clear or Long Jump may be penalised. Once the dog has cleared the obstacle he should remain on the other side under control until joined by the handler.
- e. The Scale should be a vertical wall of wooden planks which may be grooved, or chamfered along their bottom edge, to assist the dog. Slats are not permitted. The top surface of the scale may be slightly padded. The handler and dog should approach the scale at a walking pace with the dog at heel. At the handlers discretion and in his own time whilst the dog and handler are in a stationary position and the dog's front feet are within the clearly defined 2.743m (9ft)marker(s) the dog should be ordered to scale. On reaching the other side the dog should be ordered to stay in the stand, sit or down position, the handler having previously nominated the position to the Judge. The Judge should ensure that the dog will stay steady and may indicate to the handler where he should stand in relation to his dog and the scale before ordering the dog to be recalled over the scale. A dog which fails to go over the scale at the second attempt shall be excluded from the stay and recall over the scale. Failure in the recall over the scale does not disqualify from marks previously gained.

- f. Failure or refusal at any of the 3 types of jump may be followed by a second attempt and any one such failure shall be penalised by half the marks allotted to that part of the exercise in which the dog is given a second attempt.
- g. Jumping heights and lengths:

11. Search.—The Introductory Stake Search shall contain 4 articles of which only 3 are to be recovered. The Companion Dog (CD) Stake Search shall contain 3 articles and all other Stakes shall contain 4. In all Stakes fresh articles must be placed for each dog who must recover a minimum of 2 to qualify. The Judge must choose Track and Search articles suitable to the nature of the ground and Stake being judged and which are unlikely to be in any way injurious to the dog. The time allotted shall be 4 minutes in the Introductory Stake and the CD Stake and 5 minutes in all other Stakes. The articles should be well handled and placed by a Steward who shall foil the ground by walking in varying directions over the

area. An area of ground which has had a search laid over it must not have another search laid over it until the following day. The Introductory Stake and the CD Stake search area shall be 13.761m square (15 yards square), all other Stakes being 22.86m square (25 yards square) and shall be clearly defined by a marker peg at each corner. The handler may work his dog from any position outside the area, but must not enter it. In the Introductory Stake and the CD Stake a maximum 5 marks should be allotted for each article and a maximum 5 marks for style and control. In all other Stakes a maximum 7 marks should be allotted for each article and a maximum 7 marks for style and control.

12. Track.—The descriptions below should be followed for the Track:

- a. The Track should be plotted on the ground to be used for the nosework previous to the day of commencement of the Trials. An area of ground which has had a track laid over it must not have another track laid over it until the following day. Wherever possible the ground used for a tracking stake shall be as similar as possible to the ground used at that Trial in that Stake. The Judge must choose Track and Search articles suitable to the nature of the ground and Stake being judged and which are unlikely to be in any way injurious to the dog.
- b. The Track shall be a single line and may include turns. It shall be approximately 0.8046km (half a mile) long and should be laid as far as possible by a stranger to the dog. The article(s) must be well handled and be placed, not dropped or buried on the track.
- c. There shall be a marker left by the track layer to indicate the start of the track which must be far enough from the search square to allow the square to be worked without interfering with the track. The track layer will indicate to the competitor the line he took to the pole. There shall be no back track. In the U.D. Stake a second marker should be left not more than 27.432m (30 yds) from the start to indicate the direction of the first leg.
- d. When the Judging is in progress the track layer shall be present at the side of the Judge to indicate the exact line of the track and the position of the articles.
- e. If a time limit is given for the completion of a track it must not be less than 20 minutes.
- f. Unless the Judge considers the dog to have lost the track beyond recovery or has run out of time allotted for the completion of the track a handler may recast his dog at his discretion. The Judge should not at any time indicate to the handler where the dog should be recast except in exceptional circumstances.
- g. Tracks for specific stakes shall be as follows:
 - (1) The U.D. Stake track shall be not less than half an hour old and shall include 2 articles, one of which must be placed in the first half of the track. At least one article must be recovered to qualify.
 - (2) The W.D. Stake track shall be not less than one and a half hours old and shall include 2 articles one of which must be recovered to qualify.
 - (3) The P.D. Stake track shall be not less than 2 hours old and shall

- include 2 articles one of which must be recovered to qualify.
- (4) The T.D. Stake track shall be not less than 3 hours old and shall include 3 articles two of which must be recovered to qualify.
- h. In all Stakes the last article shall indicate the end of the track. No 2 articles should be laid together.
 - i. A spare track additional to requirements should be laid but the opportunity to run a new track should be given only in exceptional circumstances.
 - j. The area used for tracking is out of bounds to all competitors for practice tracks and exercise from the time of the first track and any competitor found contravening this instruction is liable to be disqualified by the Judge and or Trials Manager from participating in the Trial in accordance with the provision of Regulation I10.c.
 - k. The dog must be worked on a harness and tracking line. The line must be attached to the upper section of the harness so that when the dog is worked the line does not pass under the dog.

13. Quartering the Ground.—The missing person should be protected consistent with safety, should remain motionless out of sight of the handler but should be accessible on investigation to the dog when “winded”. The Judge should satisfy himself that the dog has found the person and has given warning spontaneously and emphatically without being directed by the handler. Once the person has been detected and the dog has given voice, it may be offered meat or other food which should be refused by the dog. If the dog ignores the food it may be thrown on the ground in front of the dog. A dog which eats the food and/or bites the person must be heavily penalised.

14. Test of Courage.—This is a test of courage rather than of control. Dogs will not be heavily penalised in this test for lack of control. Handlers must be prepared to have the dog tested when on the lead by an unprotected Judge or Steward, and/or when off the lead by a protected Steward. The method of testing is at the Judges discretion.

15. Search and Escort.—The “criminal” will be searched by the handler with the dog off the lead at the sit, stand or down. The Judge will assess whether the dog is well placed tactically and ready to defend if called to do so. The handler will be told to escort the “prisoner” at least 27.432m (30 yds) in a given direction, he will give at least one turn on the direction of the Judge. During the exercise the “criminal” will turn and attempt to overpower the handler. The dog may defend spontaneously or on command and must release the “criminal” at once, both where he stands still or when the handler calls him off. The handler should be questioned as to his tactics in positioning the dog in both search and escort.

16. Recall from Criminals.—The “criminal” protected consistent with safety, will be introduced to the handler whose dog will be free at heel. After an unheated conversation the “criminal” will run away. At a reasonable distance the handler will be ordered to send his dog. When the dog is approximately half way between handler and the “criminal” he will be ordered to be recalled. The

recall may be by whistle or voice. The “criminal” should continue running until the dog returns or closes. If the dog continues to run alongside the “criminal”, the “criminal” should run a further ten or dozen paces to indicate this.

17. Pursuit and Detention of Criminals.—The “criminal” (a different one for choice) and handler should be introduced as above, and the dog sent forward under the same conditions. The “criminal” must continue to attempt to escape and, if possible, should do so through an exit or into a vehicle once the dog has had a chance to catch up with him. The dog must be regarded as having succeeded if it clearly prevents the “criminal” from continuing to flee by holding him by the protected arm. If the dog fails to make a convincing attempt to detain the “criminal”, it shall lose any marks that it may have obtained under exercise 14(a) or alternatively, it shall not be tested on exercise 14(a) if that follows exercise 14(b).

(The use of the singular throughout this Annex may, where appropriate, also apply to the plural.)
