### ECZEMA

(Weeping skin), do not use water or soap in this condition. Wash the parts with the best grain alcohol and apply the ointment twice a day. Cover the sore part with clean white cloth where possible to prevent the animal from scratching and biting itself. As the irritation and soreness subside, apply once a day.

### RED MANGE

(Red Eczema Rubrum): Treatment same as for Eczema.

Scabies Follicularis (or true Parasitic Mange): Thoroughly wash the parts with warm water and any good soap, and rub the ointment on the skin thoroughly, making sure to cover every spot affected. This should be done twice a day. Keep the dog away from other animals and disinfect the kennel. This treatment must be continued for some time, or, at least, until all spots have healed.

### PRURITUS

(or itching of skin or anus): Give the animal a thorough wash with warm water and "Vaseline" Tar Soap, and apply the ointment to the itching parts. Where due to worms in the rectum, place some of the ointment on the finger or a round smooth stick or douche nozzle and insert in the rectum, also thoroughly cover the outside parts, when the irritation will stop immediately.

## Doctor's Distemper Mixture.

About 80 per cent. of orders now coming in are repeat orders. The sale of this Mixture has exceeded my expectation. Masters of Hounds and other large breeders are recommending it to each other. I have had repeat orders from 42 packs of hounds. This Mixture has not yet been on the market one year; it is a NEW REMEDY, prepared by Medical Men.

LADY LEWIS writes from Kington, September 16th—

"Dear Sir,—I am enclosing a cheque for a/c, and I must tell you how successful your Distemper Mixture has been. I have a Kennel of French Bulldogs, and they are a somewhat delicate breed. I have had seven puppies attacked, and three old dogs; of the latter we have lost one, and he had the disease a fortnight before we realised what was wrong. The others are all well again, except one very small one that is ten years old, and she, too, is now making a good recovery. Several of the Retrievers also got Distemper."

CAPT. THOMPSON, Master of Otterhounds, writes—

"I enclose a list of Distemper cases for past three seasons. You will note I have never lost a hound, and only one Terrier, which came into kennel from walk and died in a few hours."

In Bottles, 2/9, 5/6 and 10/6, carriage paid by post; or 45/- per gallon by railway,

From MAJOR BIRKBECK, Settle, Yorks.

## THE REAL SANITARY WATER-PAINT.

Quick, Cheap, Practical and Invaluable for Kennels,  
Farm and Estate Buildings, Dairy Sheds, etc. —

# HALL'S SANITARY WASHABLE DISTEMPER

is most economical. It is applied with a whitewash brush, saving 40 per cent. in the cost of labour, it dries quickly, with a flat uniform surface, and does not fade, blister, nor peel off. It is, when first applied, a thorough disinfectant and germ destroyer, and has the great advantage of being entirely free from the objectionable smell of paint.

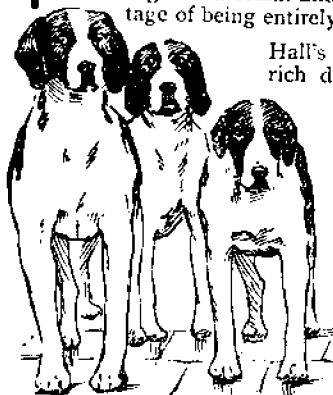

Hall's Distemper is made in 70 colours including rich dark, as well as light shades, and in two qualities, for inside and outside work. It is sold in tins and iron kegs, and only requires mixing with water to be ready for use.

**CAUTION**—The public are warned against imitations which do not possess the unique qualities which have made Hall's Distemper famous.
