

Remit of the Equipment Panel

- The Equipment Panel comprises of 5 members of the Agility Liaison Council
- They are the first point of contact between Equipment Manufacturers for approval of any New Equipment.
- They are the first point of contact between Equipment Manufacturers for approval of any modifications to currently approved Equipment.
- They will look at currently approved Equipment to ensure that the specifications are still relevant in today's agility arena. Making sure all equipment is safe to use.
- They will take instructions from the Kennel Club to look at and advise back about any concerns that are raised by the Agility Community
- They will report back to the Agility Liaison Council at the half yearly meetings

The Equipment panel would like to have an open dialogue with all Equipment Manufacturers including those abroad.

We would welcome the opportunity to get all the Equipment manufacturers together to discuss ideas and solutions to help Agility progress as a sport ensuring safety and consistency with the equipment produced.
