

# Boxer

The Boxer is a descendant of the Bullenbeisser (meaning bull biter), a German breed which was used to hunt bear, boar and deer in the 19th Century. It is thought that this breed was crossed with the Bulldog and this provided the basis for the present day Boxer.

The Boxer, much loved as a family companion for his intelligence and character, is an excellent guard dog and has proved his worth as a tracking dog and worked in the armed forces as a messenger and as a pack carrier. His clean outline, glossy coat and the nobility of his beautiful head and expression have brought the breed many admirers.
