

# Dog Rescue Directory

THIRTY THIRD EDITION 2018

Give a dog a Home

**THE KENNEL CLUB**  
*Making a difference for dogs*

## FOREWORD

The Rescue Directory is compiled by the Kennel Club as a means of providing initial points of contact for rescue services in response to the hundreds of enquiries we receive every month.

This Directory is to assist in the rescue of stray and unwanted dogs. It is not designed to replace the purchase of puppies from responsible breeders, but is to help people who want to rehome an abandoned dog or who need to find a suitable home for their own dog.

The only aim of any Rescue Organisation is to find a permanent home for the dog in need. Every potential owner should be carefully checked and vetted as to their suitability for the particular dog involved, as must the dog with regard to temperament and physical fitness.

Rescue work is team work and the formation of a Rescue scheme for a particular breed should ideally come through a breed club, the members of which can become involved in raising money to support the scheme and assist in the re-homing of dogs. Where possible, it is advisable that owners wishing to find a home for their dog should sign a lease of ownership in favour of the Rescue organisation and the new owners should agree not to sell the dog without reference back to the Rescue organisation.

Once a Rescue scheme is established, it is advisable to seek the help of an accountant or solicitor with a view to obtaining charitable status, thereby avoiding unnecessary taxation.

The Rescue scheme is also advised to ensure that it maintains sufficient insurance cover for all eventualities.

Please note that whilst the Kennel Club endeavours to ensure that the organisations included in the Rescue Directory are bona fide, we do not have control over the way in which they are run, since they are not bound by Kennel Club Regulations. However, the Kennel Club Breed Rescue Code of Practice outlines standards of operation expected of breed rescue organisations.

To bring breed rescue under a common identity, a new logo was launched by the Kennel Club in 2011 specifically for breed rescue organisations that are supported by the Kennel Club. The breed specific rescues listed in this directory all form part of Kennel Club Breed Rescue. It is the principal objective of the Kennel Club to 'promote in every way the general improvement of dogs', this is achieved through ensuring that the Kennel Club is the first port of call on all canine matters and recognising the importance of canine health and welfare. The Kennel Club is firmly committed to safeguarding the welfare of all dogs and thus supporting wholeheartedly the interests of rescue dogs.

Where the initials of a general rescue organisation appear with the details, after the telephone number, of a particular breed rescue society, this indicates that the general rescue organisation utilises the services of this breed rescue to rehome dogs of their breed.

GF	Gables Farm Dogs & Cats Home

The Association of Dogs and Cats Homes was founded in 1985 in order to bring together dog and cat welfare organisations. Mr Tom Field-Fisher, who at the time was the Chairman of Trustees at Battersea Dogs & Cats Home, founded the Association to aid communication between like-minded charities. Since its birth, it has grown immensely and now has four very productive meetings a year and arranges annual conferences for its delegates and staff. There are now 72 members and 50 associate members of the Association with new applications coming in all the time. The members are charities of all sizes situated throughout England, Scotland, Wales, Ireland and the Channel Islands.

The Association acts as a platform for identifying and disseminating information on best practice and for raising the standards of animal welfare. Members are denoted in the Rescue Directory by the initials ADCH. If you require any further information about the 'Association of Dogs and Cats Homes' please contact:
