

## Report from Governance Panel July 2018

### Review of H regulations

Discussions have started on how to produce an updated and concise set of H regulations.

In order to complete a review we need to know the outcome of the proposals for jump heights and grading. Input would be helpful on to where agility is going.

The timetable we had set out was unrealistic a new target is to have a discussion paper out for July 2019.

The new regulations will be split into the following sections.

#### **General provisions**

#### **Part 1: Organising a show**

#### **Part 2: Judges**

#### **Part 3: Entering a show**

#### **Part 4: Obstacles and marking**

#### **Part 5: Height of dogs**

#### **Part 6: Grading**

#### **Part 7: General provisions for competitors**

#### **Part 8: Objections**

#### **Part 9: Championship shows**

#### **Part 10: Agility matches**

#### **Part 11: Limited shows**

### Judges Guide to Equipment

An update of the guide will be needed to include any changes resulting from the proposals on jump heights.

As such work will begin on a new guide.

The new guide will include clarifications and guidance issued.

The aim is to produce a draft of this for the July meeting.

The panel would like the councils view on splitting the guide into 2 parts

1 Guide to agility Equipment.

2 Guide to agility judging.

### Governance

We had wanted to look at the governance of KC agility. At the meeting in July 2017 we were informed that the KC was looking at this. Could we have an update on any progress?

### Proposals

In order to restrict the number of proposals we get they should be first a discussion item then a nominated member of the council would work with the proposer to produce a well thought out and workable proposal

Activities Committee

Could the council be notified of AC decisions before the closing date for our agenda. The current system means the first we know of their decision is when the agenda is published or a press release from the KC saying a rule has changed.
