KENNEL CLUB / BVA / BSAVA / RCVS

Veterinary report of a caesarean operation on a dog and/or a procedure altering the natural conformation of a dog

The owners of all dogs registered with the Kennel Club give their consent to the reporting of the following: [(1) any caesarean operation, and/or] (2) any operative procedure carried out by a veterinary surgeon on a dog which alters its natural conformation.

Veterinary surgeons carrying out such procedures are therefore asked to complete the following form (to the best of their knowledge) and send it to The Kennel Club, 1-5 Clarges Street, Piccadilly, London W1J 8AB.

Owner’s Name and Address:

Breed of Dog: ........................................ Dog’s D.O.B: ........................................

Name by which Dog commonly known: ..........................................................

KC Registered Name: ....................................................................................

KC Registration Number: .............................................................................

Permanent Identification : ............................................................................
(e.g. microchip or tattoo number, if applicable)

Procedure performed : ...................................................................................

If caesarean section, please state whether the procedure was elective, emergency or unknown:

Date: ........................................

Name of Veterinary Surgeon : (in block capitals)

Practice : ........................................

Signature of Veterinary Surgeon : .................................................................

Counter signature of Client to confirm the dog’s identity (if applicable):

Registration of a dog with the Kennel Club permits a veterinary surgeon who carries out surgery to alter the natural conformation of a dog or a caesarean operation, to report this to the Kennel Club – RCVS Guide to Professional Conduct part 2A
