

## Chris Huckle

I am pleased to be elected by my peers in the South and South West Region, to represent them at the Kennel Club. With almost thirty years of involvement in Agility, I have seen the sport grow from a minority sport to become the major phenomenon that it is today. I have been actively involved in all aspects of agility. This includes running competitions (as show manager), judging at all levels both internationally and domestically, gaining recognition as a Kennel Club Championship Judge, serving on the Kennel Club Agility Liaison Council and as one of the team of Agility Judges Trainers.

I am an active competitor who is particularly well known for the range of dogs that I have had the pleasure of owning. These include Labradors, Belgian Shepherd Dogs, crossbreeds and Border Collies. Virtually all of these have worked up to Grade 6 or 7 and have won major National Finals. I can be found at competitions most weekends throughout the summer with my current dogs Charbonny Scapa (BSD) who has now retired aged 12, and Nedlo Tavy At Kingswold who is 6 years old.

When not actively competing I can be found either training, helping or judging as I am aware of the work involved in organising competitions.

My day job sees me involved in Agri-Environmental research where I am a Chartered Health and Safety Advisor and am responsible for animal care and welfare.

I welcome any comments on the issues that concern the competitors in the South and South West region and I can best be contacted by email.
