We were sad to announce on 26 March that Crufts 2021 – due to take place 15-18 July – has been cancelled.

This decision was taken due to the uncertainty of the current situation regarding the Covid-19 pandemic and consideration for the health and safety of all its staff, judges, volunteers, exhibitors, trade stand holders and visitors.

We hope to look forward to welcoming Crufts back in its full glory on the 10-13 March. To read the release in full see crufts.org.uk/press-releases

The Kennel Club Genetics Centre to re-open as part of the University of Cambridge

Following the announcement in July 2020 of the closure of the Animal Health Trust, The Kennel Club confirmed that The Kennel Club Canine Genetics Centre will officially re-open and be located at the University of Cambridge in March. Here, the centre's vital research into dog genetics and inherited canine conditions can continue.

2021 breed club championship shows may be carried forward to 2022

In its latest move designed to assist clubs and societies during the ongoing pandemic, The Kennel Club Board, following a recommendation from the Show Executive Committee, has agreed that any carry over of 2021 CCs by breed clubs to 2022 must be scheduled as a partnership show with the breed club either holding two championship shows on one day or one standalone championship show and the second championship show as a partnership event. In the case of the latter, the show must be held either with its own open show or preferably with a general or group championship show or another breed club. It has also been agreed that back-to-back events are acceptable as long as they are held on consecutive days and within a 25-mile radius of one another.

Further to this, it has been agreed that any breed club which is on rotation and entitled to a set of CCs in 2021 and is unable to hold its championship show can make use of the CCs in 2022 within the same policy.

The management of the show diary for this year and next is challenging due to cancellations, postponements and some breed clubs deciding to hold two championship shows in one year. Whilst we are doing everything we can to agree to requests to change dates, in some instances there are just not enough individual dates available.

To mitigate this situation it has been agreed that where a breed club has had to postpone its 2021 championship show to 2022 this show must be held as a partnership show, so as not to take up an additional date in the diary. To schedule postponed 2020 and 2021 championship shows to 2022 would again compromise the number of available dates in 2022 and therefore it was agreed that the 2020 set of CCs would be cancelled.

The Kennel Club Genetics Centre to re-open as part of the University of Cambridge

Continued from page 1

The Kennel Club Charitable Trust has funded the centre since its initial launch at the Animal Health Trust in 2009. The new centre will continue to be led by Dr Cathryn Mellersh, and has resumed its mission to research genetic mutations and assist in developing breeding tools for some of the most common and debilitating inherited conditions in dogs. The Kennel Club and the canine genetics team are working together to ensure that the centre's research targets conditions that have the greatest impact on the health of dogs. The Kennel Club's breed health and conservation plans, a project that gathers all available health information and data about each breed, will play a vital role in guiding the centre's objectives and areas of research.

During its time at the Animal Health Trust, The Kennel Club Canine Genetics Centre had a significant impact on the health of numerous breeds. Researchers at the centre developed 25 different DNA tests for canine inherited diseases that

affect over 50 breeds. Research into the impact of some of these tests revealed that over a ten year period, thanks to uptake of these tests by responsible breeders, the frequency of disease-causing genetic variants in some breeds reduced by a staggering 90%. Close collaboration with breed clubs and breeders is essential to the success of the centre, as is the collection of over 40,000 DNA samples that has been developed over the

last twenty years. These samples, along with valuable scientific and DNA sequence data have now been secured and transferred to the University of Cambridge for further analysis. Relaxation and suspension of necessary F regulations extended to the end of 2021

The Kennel Club and its committees across all disciplines are working hard to find solutions to assist societies during the ongoing pandemic, and in view of this the Board has now agreed to extend the period of relaxation/suspension of the following F regulations from 31 July 2021 to the end of 2021, following a recommendation from the Show Executive Committee:

Suspended

• F(1)3.g

'(1) Group and general championship shows: A board

within the ring on which the awards must be clearly displayed after each class, as soon as determined by the judge. (2) Breed club championship shows, open and limited shows: An area for the display of awards'

Relaxed

• Regulation F4.a – relaxed to allow for capping of entries

'Championship shows-which are open to all exhibitors (except where a qualification for entry has been approved by the Board of The Kennel Club) and at which Kennel Club

Challenge Certificates are offered. (vide Kennel Club Show Regulation F(1))'

• Regulation F4.b – relaxed to allow for capping of entries

'Open shows-which are open to all exhibitors. (vide Kennel Club Show Regulation F(1))'

• F(1)6.a – relaxed to allow digital award cards

'There shall be at least 4 awards including reserve on offer in every class. Printed awards must be given and, may indicate the name of the society, the type and date of the show, the nature of the award and the name of any

commercial firms donating the awards.'

In addition to the extension of the period of relaxation/suspension of the above F regulations, The Kennel Club has also agreed to relax until the end of 2021 the policy which under normal circumstances prevents breed club championship shows being held on the same weekend as an All-Breed championship show unless within 25 miles of the venue.

The Kennel Club AGM set for June 23

The Kennel Club's Annual General Meeting (AGM) will take place on **Wednesday 23 June 2021 at 11am.**

The meeting will be held using Zoom Video Webinar, which will allow The Kennel Club members to attend the event as it happens, and raise comments and questions using both the chat function and verbally, it is anticipated.

Under its Articles of Association, The Kennel Club AGM must take place by the end of June 2021 and thus there is not the option to delay the meeting until later in the year when it may be possible to hold it in person. However, The Kennel Club is committed to holding a physical Special General Meeting later in the

year, presuming the conditions allow for this.

The Kennel Club members have been invited to submit items for consideration for the agenda and nominations for new candidates for The Kennel Club Board in advance of the meeting as usual.

All voting will take place in advance of the meeting, as in 2020, and will be managed by The Kennel Club's independent scrutineers, Mi-Voice. There will be no voting on the day.

...there is not the option to delay the meeting until later in the year

Members are also invited to submit questions in advance of the meeting and have been advised that questions received in advance will be given priority on the day. Members will be able to ask questions during the meeting itself and these will be answered live where possible. Any questions which it is not possible to answer on the day will be collated and circulated to the members in a report after the AGM.

The Kennel Club appoints new Genetics Research Manager

Dr Joanna J. Ilska has joined The Kennel Club in the role of Genetics Research Manager. She is a quantitative geneticist and replaces Dr Tom Lewis who now works for Guide Dogs for the Blind.

Joanna was born in Poland and has lived in the UK for 15 years. From very early childhood she was obsessed with animals, particularly dogs. The topic of genetics and breeding has always fascinated her, in what she calls "both its complexity and tremendous power". This has led to her completing her first degree in BSc Applied Biosciences (Animal Science) in 2008, followed by MSc in Quantitative Genetics

and Genome Analysis at the University of Edinburgh in 2009.

In 2014 she completed her PhD in genomic prediction of breeding values in broiler chickens at the Roslin Institute, University of Edinburgh. Following her PhD, she worked as a Research Fellow on a number of projects in a wide range of species. Her main expertise lies in prediction of breeding values for complex traits, using large

scale genomic data such as whole genome sequences.

In her private life, Joanna continues to develop her passion for dogs in a range of disciplines. Although she has shown her Russian Black Terrier, Dinastii The Phenomenal (pet name Yarpén) in conformation a few times, she found her calling in dog training. She is particularly interested in competitive Obedience and Nosework. Joanna and Yarpén were a

part of a team representing Scotland in the Inter-regional Obedience competition at Crufts 2013, gaining a second place in their class. Currently, Joanna lives in Edinburgh with another Russian Black Terrier, the Polish-imported Argus Electra Petarda (pet name Falka), with whom she has dabbled in IGP, Obedience and Nosework.

The Kennel Club raises concerns over new Welsh breeding regulations

Following multiple efforts to raise concerns with officials, The Kennel Club has criticised the Welsh Government's new Animal Welfare Regulations and is urging responsible breeders to write to their Member of the Senedd to prevent serious unintended consequences.

The Animal Welfare (Licensing of Activities Involving Animals) (Wales) Regulations 2021, also known as Lucy's Law, aim to promote responsible breeding through banning the sale of puppies and kittens by commercial third-party sellers. However, The Kennel Club believes the 'botched' drafting of these laws will have the unintended consequence of bringing low volume, high welfare breeders into the scope of licensing.

The Kennel Club believes that the introduction of a 'pet vending' licence for anyone deemed to be in the business of selling animals as pets in Wales, in addition to the existing, specific dog breeding and sale regulations, will have a number of detrimental impacts. The regulations will impact disproportionately on responsible, low volume breeders and could

© BeatMedia / The Kennel Club

significantly shrink the domestic supply of healthy dogs, increasing puppy importing and puppy farming, and raising stark concerns over animal health and welfare.

Similar licensing requirements were brought in across England in 2018 and resulted in a significant number of low volume breeders coming into the scope of licensing. Local authorities subsequently do not have the available resources to target higher volume commercial breeders and responsible breeders have been discouraged from breeding dogs.

Evidence gathered by The Kennel Club suggests that by extending licensing to

very low volume breeders, the English regulations may have reduced domestic dog breeding output by around 75,000 puppies. The organisation has warned that the Welsh market may face a similar fate if the regulations are not amended, and that a reduction in the number of domestically bred puppies provides opportunities for puppy importers and puppy farmers to fill the gap.

Events

The Kennel Club would like to advise and reassure competition organisers, exhibitors and competitors that our Sports Committees are working on solutions to help enable shows, competitions and other events to resume when Government guidance allows and the current restrictions are sufficiently reduced or relaxed. We are also actively seeking Government advice and clarification on guidance already issued. We are looking at the safety measures that may need to be put in place, together with any Kennel Club Regulations which may need to be amended or relaxed to enable competitions to resume. As soon as more information is available, our guidance will be issued. We are aware that everyone is keen to resume their dog-related activities as soon as it is practical to do so, but please bear with us as we work towards helping you to provide the safest possible environment to allow for this. The continued health, safety and security of all participants at The Kennel Club events is of paramount importance.

You can make a difference for dogs... by giving them healthier and happier lives

The Kennel Club Charitable Trust (KCCT) provides grants to various canine organisations nationwide, many of which are involved in the rescue and welfare of dogs. In 2017, the KCCT gave grants totalling nearly £675,000.

Your support is essential to us and by giving whatever you can afford, you can help make a difference for dogs.

The KCCT has three objectives, the funding of:

SCIENCE - Research into diseases and other health conditions for dogs

SUPPORT - The training of dogs to help humans
