Lewis Garstang, 12, wins YKC Young Person of the Year 2021

Lewis named YKC Young Person of the Year

Dog-devotee youngster Lewis Steven Garstang from Haverhill, Suffolk has won the Young Kennel Club (YKC) Young Person of the Year award at Discover Dogs.

Following the tragic death of his father in 2018, Lewis took on the training and running of his dogs, Rosie and Willow, in agility. Both rescue dogs, the two have very different behavioural challenges and needs, but 12-year-old Lewis has continued to persevere with their training and has built up a very strong bond with the pair of them. Despite having experienced such a tough time in his life, both dogs continue to bring Lewis a lot of comfort and vice versa.

Proud Lewis said: "I feel extremely happy and shocked that I won this award as all the other nominees had such amazing stories!"

The YKC was inundated with nominations for one of five categories in the prestigious award which celebrates the hardworking, inspirational and selfless actions of young dog lovers. The two winners of each category were invited to The Kennel Club's Discover Dogs

event at London ExCeL for the award ceremony, following a public vote to decide the overall YKC Young Person of the Year award.

THE CATEGORY WINNERS WERE:

Community Award – Emily Williams, 17, of Clwyd; and Maria Louise Clark, 24, of Kent

Compassion Award – Rosie Shepherd, 24, of Northamptonshire; and Millie Youngs, 16, of Shropshire

Personal Achievement Award – Lewis Steven Garstang, 12, of Suffolk; and Emily Rice, 15, of Cambridgeshire

Creative Talent Award – Isabel Patten, 13, of Essex; and Rebecca Colley, 21, of Nottinghamshire

Inspiring Others Award – Charlotte Baker, 18, of Somerset; and Danielle Wilson, 12, of Dumfriesshire.

The Kennel Club to sponsor Vulnerable Breeds stakes

General open and limited shows which schedule stakes classes specifically for the Vulnerable Native Breeds (VNBs) will receive sponsorship from The Kennel Club as of 1 January 2022.

Vulnerable Breeds meet Princess Anne

In a bid to provide encouragement to the owners and breeders of the VNBs, while at the same time creating much-needed publicity for their cause, The Kennel Club will provide a rosette for the overall winner of VNB stakes classes. In order to qualify for sponsorship, the society must schedule a minimum of three such classes from which the appointed judge will select an overall winner.

The Kennel Club's list of VNBs was created in 2003 and there are currently 32 breeds of British or Irish origin which fall into this category

through having generated 300 or fewer registrations in the preceding year.

Societies which schedule at least three VNB stakes classes and would like to claim the sponsorship should email the Breed Shows team at The Kennel Club on breedshows@thekennelclub.org.uk, ensuring they provide details of their show date and type as well as the address to which the rosette should be posted.

More details of the Vulnerable Native Breeds can be found on The Kennel Club website at thekennelclub.org.uk/vulnerablebreeds

Seven new breed films added to The Kennel Club Academy

Learning about the different dog breeds continues to be made more accessible than ever, with the launch of seven additional breed films on The Kennel Club Academy, the latest in a growing series of resources to be added to the leading online facility for those looking to improve their knowledge of the canine world.

The most recent of the breed-specific films to be launched is the Bedlington Terrier, which is now live, with the Chesapeake Bay Retriever, Lagotto Romagnolo, Afghan Hound, Polish Lowland Sheepdog, Australian Shepherd and Cavalier King Charles Spaniel having also been added in recent months. This brings the total number of breeds with films on The Kennel Club Academy to 37.

The Kennel Club Academy has a wealth of resources covering not only judge education in a number of disciplines, e.g. agility, obedience and working trials, but also other areas of the dog world including health, breeding and training.

All the breed-specific presentations and films have been developed by experts in their breeds in collaboration with The Kennel Club and offer users an insight into their knowledge and experience. The learning resources provide a thorough introduction to the breeds, including their history, breed standard, a 'nose to tail' overview and movement in the show ring.

The resources provide pre-course learning ahead of attendance at a breed appreciation day and undertaking an assessment. It also provides Academy users with an opportunity to update their knowledge of breeds from breed experts.

To access The Kennel Club Academy, please log into your account on The Kennel Club website at thekennelclub.org.uk. Then simply select 'Academy' from the list of tasks on your dashboard.

Please direct any queries regarding The Kennel Club Academy to email KC.Academy@thekennelclub.org.uk

The Kennel Club updates French Bulldog breed standard

The Kennel Club has reviewed and updated the breed standard of popular French Bulldogs to further underline the importance of avoiding extreme features that can lead to health problems, and has urged puppy buyers to beware, as demand for these dogs in the UK continues to rise.

The French Bulldog, favoured by celebrities and popularised by social media and advertising, has surged in popularity over the last decade, increasing by 1,682 per cent since 2010. However, as a 'flat-faced' brachycephalic breed, French Bulldogs can face health problems such as poor breathing, eye and skin-fold issues, which have been compounded by huge demand and disreputable breeders filling the supply, with no regard for health or welfare.

The Kennel Club, concerned with the soaring demand for French Bulldogs and both the irresponsible breeding and buying of these dogs, has reviewed the breed standard and updated its guidance in line with proposals from the breed clubs, aiming to further ensure extreme and exaggerated features are avoided. Whilst all breed standards make it explicitly clear that any exaggerations that are detrimental to health should be avoided, the amendments help to further underline this point, with changes including the insertion that the well-defined muzzle should also 'be clearly viewed in profile' and that the nostrils should be 'visibly' open.

This comes following the organisation launching its Respiratory Function Grading Scheme in 2019, developed in partnership with the University of Cambridge to support and encourage the responsible breeding of French Bulldogs and other brachycephalic breeds. The scheme assesses a dog for the likelihood that it has BOAS (Brachycephalic Obstructive Airway Syndrome), which can affect some French Bulldogs, so that better informed breeding and puppy buying choices can be made and the right care given to any affected dogs.
