## Vulnerable British and Irish Breeds competition returns in 2024

Heats for the Vulnerable British and Irish Native Breeds competition have started taking place and as in previous years will culminate in a grand final at Crufts 2025.

To raise awareness of vulnerable British and Irish native breeds, and to recognise those people who are dedicated to their survival and prosperity, The Kennel Club created the competition in 2015. In 2024, 35 breeds fall into this category, having generated 300 or fewer puppy registrations in the UK in the previous year. For the first time, the Irish Terrier has now joined the list as a Vulnerable Breed having generated just 244 puppies last year.

The competition has proved very popular and at Crufts 2024, two-year-old Irish Wolfhound (Brida Della Bassa Pavese), co-owned by Stefano Erea and Dr Francesca Agnoli from Milan, Italy, and handled by Ludovica Salamon, was chosen as the winner of the grand final on Friday 8 March at Crufts, judged by Gavin Robertson.

Following a similar format to the one used in 2023, only the Best of Breed winners at designated championship shows this year will qualify for the final.

**The competition is open to all vulnerable British and Irish breeds competing at the following championship shows:**

- 30 March 2024, United Kingdom Toydog Society
- 6 April 2024, National Terrier Club
- 13 July 2024 National Working and Pastoral Breeds Society
- 20 July 2024, Hound Association
- 4 August 2024, National Gundog Association

Dogs of breeds which are on The Kennel Club's Vulnerable British and Irish breeds list who win Best of Breed at the above shows will qualify for the competition and will be invited to compete in the grand final at Crufts 2025. In cases where the Best of Breed winner is unable to compete in the final, the Best Opposite Sex winner will be invited.

Tom Mather, Crufts Chairman said: "The Vulnerable British and Irish Breeds competition final is a very important event at Crufts as it's a wonderful way to highlight just how special these vulnerable breeds are. We must support these lesser known breeds as they could be the perfect fit for certain owner's lifestyles but are being overlooked in favour of other breeds that might not be, simply because they are not as well known.

"We hope that show societies work with breed clubs of vulnerable British and Irish native breeds so that these clubs can inspire their membership to enter the classes and take part in the competition."

To find out more about the competition and vulnerable breeds, see [thekennelclub.org.uk/vulnerablebreeds](http://thekennelclub.org.uk/vulnerablebreeds)

All Crufts 2025 finalists will be contacted by The Kennel Club in December 2024.

**The following breeds are eligible to compete:** Bearded Collie, Bloodhound, Bull Terrier (Miniature), Collie (Smooth), Dandie Dinmont Terrier, Deerhound, English Setter, English Toy Terrier (Black & Tan), Foxhound, Fox Terrier (Smooth), Glen of Imaal Terrier, Gordon Setter, Greyhound, Harrier, Irish Terrier, Irish Red & White Setter, Irish Wolfhound, Kerry Blue Terrier, King Charles Spaniel, Lakeland Terrier, Lancashire Heeler, Manchester Terrier, Mastiff, Norwich Terrier, Otterhound, Retriever (Curly Coated), Sealyham Terrier, Skye Terrier, Soft Coated Wheaten Terrier, Spaniel (Clumber), Spaniel (Field), Spaniel (Irish Water), Spaniel (Sussex), Spaniel (Welsh Springer), Welsh Corgi (Cardigan).

Belleville Portuguese Water Dogs who won the Breeders' Competition and new flyball winners Watson's Legacy – with not a Whippet in sight! We go behind the scenes and hear from the stars of the future, the agility canine rockets – that seem to get faster every year, the focused and poised obedience and rally winners and the dogs that love the arena spotlight and performing their best heelwork to music.

Our Crufts report looks at how international Crufts was this year with more dogs than ever before coming from overseas, but despite this international assortment of dogs our Best in Show judge, Ann Ingram chose her winner closer to home, Australian Shepherd 'Viking', from Solihull, co-owned by Melanie Raymond, John Shaw and Kerry Kirtley.

We bring you a round-up of Crufts news, from three breeds that had Challenge Certificate status for the first time at Crufts, the breeds that pulled in the largest entry, a new dog activity that had their debut in the Resorts World Arena to who was spotted amongst the crowds, charity donations and the delightful smiles of the children from local schools that visited the Bark and Read stand to celebrate World Book Day. For a second year running Crufts showed its support for the Stand Up To Cancer Walkies Challenge and encouraged visitors and competitors to sign up to the challenge of walking 60 miles across the month of April to fundraise for Stand Up To Cancer – a joint national fundraising campaign from Cancer Research UK and Channel 4.

We also congratulate those breeds that celebrated their club's anniversary at Crufts: the Clumber Spaniel Club's 120th, the Sussex Spaniel Association's 100th anniversary and 40 years of the Irish Red and White Setter Club. The Southern Golden Retriever Display team celebrated their 20th year at Crufts and one of the team, 'Jonty' was captured certainly in

the mood to celebrate during one of their displays! Clare Balding CBE celebrated 20 years of presenting at Crufts, Vince Hogan, Managing Director of Our Dogs raised a glass to his 50th Crufts and Sara Wilde, Head of Communications and part of the press team at Crufts celebrated 25 years' service with The Kennel Club.

In our show review we meet the stars of Discover Dogs, as it celebrated 30 years at Crufts, and we talk to the winners who won the Best Stand in each group, and work tirelessly to man their stand over the four days, organise the dogs and talk to the many thousands of people asking endless questions about their breed.

Meanwhile around the breed rings, breed clubs, societies and rescue organisations decorate and man a stand beside the ring in which their breed is being shown and they also answer questions from the public and are presented with an award for the Best Breed Club Stand from each group.

We meet the ecstatic winners that won the 'double' in the show ring this year, and two familiar commentators that are heard in the main arena share their Crufts 'best bits'. We invite Urszula Staszczuk to reflect on her Crufts experience as an overseas visitor rather than an exhibitor or judge, our public affairs team were kept busy showing politicians around the event, and highlighted the work The Kennel Club does to improve the health and welfare of dogs.

Medical Detection Dogs, once again, presented another enthralling display in the main arena including their most recent success – identifying tiny particles of nut within areas that may pose a serious risk to allergy sufferers. West Midlands Police ramped up the action with their police dog display and showcased the work of newly trained victim recovery dogs Eccles and Luna, who made their first appearance at Crufts, and our working gundogs demonstrated their skills in the gundog display.

It's evident that this year's show was a resounding success and the phenomenal attraction of Crufts is shown in the statistics. An event that even had people pleading for tickets on social media for Saturday and Best in Show on Sunday appeals to so many – it certainly is the show that every dog lover wants to attend.

# New heart survey open to all breeds

**The Kennel Club, in partnership with the Veterinary Cardiology Society (VCS), has developed a new online survey, which aims to improve understanding of prevalence and type of heart disease affecting different pedigree dog breeds.**

The survey hopes to gain insight which will help get a better understanding of the need for heart testing across breeds, as well as any breed-specific nuances that may influence heart disease development. The results will be used to direct new research to areas that require further attention.

The survey is open to all dog owners of all breeds – for both dogs that may currently be living or who have sadly passed away.

Charlotte McNamara, Head of Health at The Kennel Club said: “Heart disease is a broad term used to describe a range of abnormalities that affect the

normal function of the heart. We are asking dog owners to kindly spend a few minutes to complete the survey for all dogs owned, either now or in the past, even if they have never been affected by heart disease. The results will allow us to direct new research to areas that require further attention. We thank everyone for taking the time to contribute to this research and for help in improving canine heart health.”

The survey will be managed and results collected by The Kennel Club. All personal information given will be kept confidential and be presented anonymously. To complete the survey, please click [here](#). The survey should take no more than 10 minutes to complete.

**“We are asking dog owners to kindly spend a few minutes to complete the survey for all dogs owned”**

The Kennel Club takes insights from research and feeds them into its Breed Health and Conservation plans, so that we can work with breeders to give information and guidance about how to ensure the future health of pedigree breeds. These plans,

which enable The Kennel Club to track progress and make meaningful changes to breed health, have been developed as a result of reviewing more than 4000 research papers, which makes these plans the most comprehensive review of pedigree health data anywhere in the world.

Further information regarding this survey can be found by emailing [health@thekennelclub.org.uk](mailto:health@thekennelclub.org.uk)

## Polish Hunting Dog granted recognition by The Kennel Club

**The Polish Hunting Dog has been recognised by The Kennel Club with effect from 1 April 2024. The breed will be classified in the Hound Group on the Imported Breed Register.**

The Polish Hunting Dog is a medium sized lighter type of hound originally bred in the thirteenth century for hunting in the Polish countryside. The breed is known for its strong sense of smell and has been described as a highly intelligent active breed.

The Kennel Club now recognises 223 breeds of pedigree dog. The last breed to be recognised was the Pyrenean Sheepdog (Smooth Faced) in 2021. Until such time as a Kennel Club interim breed standard has been published, the Polish Hunting Dog is not eligible to compete at Kennel Club licensed breed shows.

### New exhibition: The Kennel Club rewinds time looking at dogs in ads

The Kennel Club Art Gallery, based in Mayfair, London, has unveiled a new exhibition which traces canines featuring in commercials.

The exhibition tracks the beginnings of marketing and advertising moguls discovering the enticing power of puppy dog eyes to sell products and delves deep into the variety of places and products that feature man's best friend, alongside cultural shifts in Britain and across the world.

Antique advertisements, artefacts and trophies dating back to the mid-19th century, and more modern unique collectables including badges, water bowls, postcards, toys and original artworks, have been carefully curated to illustrate how the beginnings of 'pet culture' impacted advertising and marketing.

Ciara Farrell, The Kennel Club's Library and Collections manager, said: "This new exhibition is a wonderful visualisation of how dogs increasingly became an integral part of our society and families.

"Visitors may recognise some well-known brands, and those clued up on their dog history will spot Spratt's Pet Food, created by James Spratt, who is beloved by all dogs for creating the first commercial dog biscuit

in 1862. Up until the social and economic changes of the 19th century, dogs were an unaffordable luxury for most people, but from the mid-19th century to early 20th century pet culture really started to kick off, with more homes welcoming dogs as companions.

"James Spratt's dog biscuit company started a revolution in how people fed and cared for their dogs and Spratt's Pet Food became a major sponsor of dog shows at the time. The market for health products, accessories and services for dogs then started to take off."

With advertising reflecting, and sometimes even creating, cultural shifts in the popularity of dogs, and individual breeds, due to the exposure from iconic brands, this exhibition looks back over the power of advertising over the years and seeks to highlight the importance of people doing their research into dog ownership and different dog breeds, rather than being influenced by advertising or celebrity endorsement.

The exhibition is open to the public, by appointment only, at The Kennel Club Art Gallery at 10 Clarges Street, Mayfair, W1J 8AB, from Monday - Friday 9:30am to 4:30pm from now until 30 August 2024.

# New DNA Testing Scheme for Dobermann

The Kennel Club has approved a new official DNA testing scheme for DINGS2 in the Dobermann, following consultation with the breed's health co-ordinator on behalf of the breed. DINGS is an early-onset neurological disease that causes a range of symptoms, and often leads to euthanasia due to poor quality of life.

The disease is described as autosomal-recessive. This means that a dog must inherit two copies of an abnormal gene (one from its mother and one from its father) before its health is affected.

**Tested dogs will be recorded on The Kennel Club systems as either:**

### **CLEAR**

The dog does not have any copies of the abnormal gene associated with the disease. The dog is highly unlikely to be clinically affected and will only pass on a normal copy of the gene to a puppy.

### **CARRIER**

The dog has one copy of the normal gene and one copy of the abnormal gene associated with the disease. The dog is highly unlikely to be clinically affected, but may pass one copy of the normal gene, or one copy of the abnormal gene on to a puppy.

### **AFFECTED**

The dog has two copies of the abnormal gene associated with the disease. The dog will likely be clinically affected by the disorder and will pass one copy of the abnormal gene on to any potential offspring.

**Results for dogs already tested can also be recorded, but owners will need to submit copies of the DNA certificates themselves**

© Nick Ridley / The Kennel Club

Test results will be added to the dog's registration details which will trigger the publication of the result in the next available Breed Records Supplement and also on the Health Test Results Finder on The Kennel Club website.

Results for dogs already tested can also be recorded, but owners will need to submit copies of the DNA certificates themselves.

DNA test certificates should be scanned and emailed to [health.results@thekennelclub.org.uk](mailto:health.results@thekennelclub.org.uk). To find out more about DNA testing please visit our YouTube channel and watch our webinar **The Science of DNA Testing**.

### **Owners are reminded that:**

- From August 2018, it is mandatory that the dog's microchip (or tattoo) is recorded along with either the dog's registered name or registered number on any DNA certificates. Any test results issued after that date that do not carry these identifying features will not be accepted.
- The Kennel Club has a set of criteria that we request DNA testing laboratories

to meet to enable us to record their results, helping to maintain and protect the integrity of results that appear on a dog's records. We have updated the list of laboratories that we accept results from and strongly advise that customers ensure their chosen laboratory is included on our **revised list** if they wish The Kennel Club to record and publish the results. Results from laboratories not included on this list will not be recorded.

To find out which laboratories The Kennel Club records results from, and which laboratories will send results directly to The Kennel Club, please refer to our **website**. To find out which DNA tests are relevant to your breed, visit [thekennelclub.org.uk/breeds](http://thekennelclub.org.uk/breeds).

The Kennel Club constantly reviews DNA testing schemes in conjunction with breed clubs to ensure that breeders are supported with resources which help them to make responsible breeding decisions. The Kennel Club works alongside breed clubs and breed health coordinators in a collaborative effort to improve the health of pedigree dogs and is happy to consider a club's request to add a new DNA test to its lists. A formal request from the breed's health coordinator or a majority request from the breed clubs is normally required to do this.

# The Kennel Club announces membership freeze as part of review

The Kennel Club has frozen new applications to the Assured Breeders scheme, whilst the next step in reviewing the registrations model, including the Assured Breeders scheme, is underway.

**T**he review process, which is underpinned by research and insights from breeders, aims to ensure The Kennel Club's registrations offering gives relevant and valued benefits to breeders and celebrates and rewards good breeding practice.

Whilst the process is underway, including a review of best practice embedded within the Assured Breeders scheme and how elements of that can be applied to the registrations model for the wider benefit of dogs, new applications to the Assured Breeders scheme will be frozen.

For existing Assured Breeders scheme members, there will be no changes to the scheme and they will continue to receive the same level of support, benefits and resources as before.

Furthermore, a more flexible and support-based assessment approach will be offered to existing members. The Kennel Club will be ceasing UKAS Accreditation for the scheme from 30 May, which will allow the adoption of a risk-based, hybrid model of virtual assessments, alongside retaining some physical on-site assessments, with advice and support for those who need it. UKAS required that assessments were not advice led, so the change will enable The Kennel Club to offer more support to breeders as they fulfil the scheme requirements, which remain unchanged. The scheme will remain compliant with ISO 17065 standards.

Bill Lambert, Health, Welfare and Breeder Services Executive at The Kennel Club, said: "Assured Breeders are at the forefront of good breeding practice and it is critical that we find the best way forward for supporting all breeders, based on insights, research and conversations we have had, so that we can widen the relevance and benefits of Kennel

Club registration and encourage best practice across the board.

"While we now work through the finer details of the review, which includes a close analysis of our offering to Assured Breeders, and what the future looks like in terms of our registrations model, we will be freezing applications from new members. We highly value our scheme members and will

continue to ensure that we offer them the same high-quality support and service as always.

"We have also taken the decision to leave UKAS, which will enable us to be more responsive and flexible to the needs and wants of our members. UKAS accreditation was valuable

in the early days of establishing the scheme but the UKAS assessment model limited the level of help, advice and support that could be provided to members during the assessment

process. The assessment model was also linked to face-to-face assessments, and we know from the Covid period that there was support for a more risk-based hybrid model of virtual and face-to-face assessments.

"There will be no other changes at this time to the scheme as a result of this transition away from UKAS, and we remain dedicated to upholding the highest standards within our Assured Breeders scheme – our priority remains the health and welfare of dogs and giving the support needed, in the format required, to our valued Assured Breeders.

"We will continue to provide updates to our membership about any developments, as soon as we have them, and thank them for their continued support and commitment to responsibly breeding the dogs that we are all here to represent."

Assured Breeders who would like further information can see more in the FAQs, available at [thekennelclub.org.uk/absupdate2024](https://www.thekennelclub.org.uk/absupdate2024).

## Kennel Club dog training update

The Kennel Club has announced that it is reviewing its dog training model, looking specifically at dog training clubs, dog training instructors and its research and insights about what dog owners want and need. The review aims to ensure that the organisation provides a strong offering for dog owners requiring training and behavioral advice, as well as that those behaviourists and clubs registered maintain high standards of quality.

The dog training and behaviour industry is currently self-regulating, however The Kennel Club has been in discussions with Defra, and other UK administrations, regarding the need to regulate dog training to help safeguard and maintain high standards which

meet the needs of those that need the provision.

As part of this review, as of 25 March, there will be a freeze of new applications to become a member of The Kennel Club Accredited Instructors scheme. It is critical that The Kennel Club ensures that it future-proofs its local dog training network and develops a clear scheme for both instructors and dog owners alike.

Helen Kerfoot, Chief Operations Office (Canine Activities), said: "We are very grateful for all the wonderful support our accredited instructor scheme has received since its inception and want to make sure that we find the best way forward for clubs and dog trainers. We will be conducting a survey to gather

views from our members as with the ever changing world we live in, we want to create a unified dog training provision, with a consistent structure and format that is valued and respected, and which supports our dog training network.

"While we work out what this looks like we feel it is only fair to freeze new applications for membership. This will not affect our current membership who we will continue to support and promote. We value our scheme members and want to reassure those working towards accreditation that their commitment to dog training is important to The Kennel Club.

"We will continue to update our membership with developments as soon as we have them and thank them for their continued support of the scheme."

Greg Derrett, Agility Team GB Manager said "This year's selection process really tested the dog training and handling skills of those trying out with some very challenging courses from the Junior Open Agility World Championship 2024 judges.

"I would like to congratulate all the junior handlers on their performances and those that have been selected to represent their country. With several of last year's team no longer eligible for the team, this year will see a lot of new team members competing for Great Britain. We are very happy with the partnerships that have made this year's teams, and are looking forward to working with both new and old handlers to develop Agility Team GB over the next four months."

Phil Keen, Managing Director of Natural Instinct, added: "We are extremely proud to be sponsoring Agility Team GB. We have been supporters for a number of years now and to be part of the events taking place this year is really exciting. We would like to wish everyone competing the best of luck."

Daniel Millwood, owner of SWAG K9 added: "SWAG K9 have supported agility in many formats over the years and we are extremely excited to now be supporting The Kennel Club and Team GB in 2024, especially after such an exciting year for the junior and senior teams last year. Well done to everyone who made the 2024 YKC Agility Team GB!"
