

Coton De Tulear

Although this, the 'Royal dog of Madagascar' was officially recognised as recently as 1990, the breed had been seen on the island of Tula for several centuries. The Coton in his title describes the texture of his single coat, which is a hallmark of the breed along with his arched loin giving him a distinctive outline.

What health screening is currently relevant?

Kennel Club Accredited Breeders must use, or are strongly recommended to use, the following screening schemes and/or advice for sires and dams:

There are not currently any veterinary screening schemes or DNA tests for disease relevant to this breed under the Assured Breeder Scheme, however you should still ask breeders and refer to breed clubs about health issues in the breed.

ACCREDITED BREEDER SCHEME
